

## Dash Camera

AE-DN2312-C4

### Main Feature

- Selling Points: 180° Super wide angle, IPS full view touch panel
- Video Format: Support MP4 play
- Voice: Support voice record
- Wireless communication: Support wifi hotspot and mobile app connect
- APP connect: support video preview, playback, parameters setting, local downloading, firmware upgrade
- Equipment activation: Connect wifi at the first time and change the password
- Video storage: Support TF card storage and maximum is 128GB, auto circulate record, support emergency recording is 6s ahead+6s later. Image and thumbnail are stored in classify
- Shrinkage video: Connect the katallobar and turn into parking monitor mode without running in 15min, this mode will down the frame automatically
- LED Status: Blue light means working well; Red light means working abnormal, cant record.
- Power off delay: Use super capacity and last 3s to power off
- Convenient installation, easily operation, auto record after 3s powered on
- Low power consumption, environmental protection

### Technical Spec

Basic Spec	
Cam resolution	1080P(1920*1080)
Record resolution	1080P@25fps (default)、720P@25fps
Fisheye correction	180° fisheye, support front correction
CMOS sensor type	400W sensor
Video compression standard	H.264
OSD overlay	Show record time, support watermark
SY	P/N (default P)
Screen Size	3inch、resolution 320*240、touch panel 16:09
Storage	TF card, 128GB maximum
Communication mode	Wi-Fi
Port	
Power supply port	Micro Usb
Communication port	UART
Voice	MIC input、SPK output
General norms	
Working temperature and humidity	-20°C~70°C, 95%
Power supply	DC5V 2A
Consumption	≤2W
Dimension(mm)	95.7(length)× 25.2(width)× 56.5(height)mm
Weight	83g
