The Hikvision DS-2CE78H0T-IT3F 5 MP Outdoor Turret Camera provides high definition analog output with a resolution of up to 2560 x 1944 pixels. TurboHD means that the analog signal can be sent over existing coaxial cable, eliminating the need to run new cables for high definition video.

EXIR 2.0 is Hikvision's proprietary IR extended range technology, which has a range of 131 feet (40 meters).

The 2.8 mm, 3.6 mm, and 6 mm fixed lens options are optimized for viewing angles that fit any situation. DWDR (Digital Wide Dynamic Range) ensures that ideal images are captured regardless of the lighting conditions. The camera also supports TVI, AHD, CVI, and CVBS video signals, and is water- and dust-resistant (IP67 rated).
